

CUBA.

The steamer *Morro Castle*, Captain Green, from Havana on the 14th inst., arrived at the port yesterday. The purser will please accept our acknowledgments for prompt delivery of our despatches and files.

SPECIAL CORRESPONDENCE OF THE HERALD.

The Residence of Baron Magnus Sold to Have Been Broken Into by Order of Juanes—Sale of the Property of the Baron Magnus—Cable Celebration—Sugar Market.

HAVANA, Sept. 10, 1897. I am informed, upon the best authority, that Baron Magnus, the Prussian Minister, was living in seclusion at San Luis Potosi, headless of the orders he received from his government to abandon the Mexican territory. He was supposed to be insane. My informant assures me that the Baron's want of popularity, as long as he remained in Mexico, had caused him many annoyances. It was supposed that he had the custody of documents of the greatest importance.

According to the *Madrid Gazette* of July 25 and 26, the Spanish government had determined to sell at public auction, three off-shore sailing ships of war—the *Santa Cecilia*, *Francisco de Asis* and *Cortes*—all three being considered as useless for modern service. It appears, however, that the government had a general intention to sell the navy, and in order to effect this, the intention is to sell the greater part of the 132 sailing ships of the navy, which are now in the hands of the government, at public auction, and to use the proceeds in view of constructing a number of modern sailing ships.

It is a confirmed fact that the Banco Espanol continues to be in a state of financial depression. The cent premium and one quarter per cent for brokerage. The bank's assets are valued at \$1,000,000, and its liabilities at \$1,000,000. The bank's assets are valued at \$1,000,000, and its liabilities at \$1,000,000.

An extra telegraph is to be established between Guanabacoa and Mariel, at the collection of the Board of Health in Mariel. It is being considered absolutely necessary, owing to the want of rapid communication with the capital, and the fact that the cable is now in a state of depression. The cable is now in a state of depression, and the cable is now in a state of depression.

The unfavorable advice about sugar received from the center of consumption have depressed our market. The price of sugar is now at 10 cents per pound. The price of sugar is now at 10 cents per pound.

Government Interference with Industrial Improvements—The Authorities and the Strikes—Reduction in Duties on Railway Material.

HAVANA, Sept. 12, 1897. A rumor is afloat among the lower classes to the effect that the government had not permitted the use of the new machines of Sauter for the manufacture of cigarettes on the plea that the soldiers of the garrison and the dockers of private dwellings (most of whom have served in the army) will thereby be thrown out of an employment which enabled them to make up for the low remuneration of their regular pay. There is no doubt that there were many men in Havana who could be employed in the manufacture of cigarettes, and they would find it difficult to employ themselves in any other.

It is quite usual in this country to hear of a "strike" among the operatives. But with the facilities afforded by continuous communication by steam, and the still more enlightening elements of the telegraph, great changes are coming over this island, and among other matters I have now to report a serious strike among the cigar makers of Havana a few days ago. Such an "event," so common and harmless in the United States and elsewhere, has been declared a criminal act in this country, according to the restrictive laws prevailing and deemed indispensable for the perfect execution of the public health.

The official inauguration of the cable took place at a quarter to four P. M. on Tuesday last. The four official messages I sent you by liberty went forward the same afternoon. The wires seemed to work most successfully, although the electric apparatus in use here is not so powerful as to send despatches by the "through line" they have had to go to Key West first.

The time taken to send the morning report to Seward's message to Washington was twenty-five minutes. The majority of persons present at the official ceremony, including General Manzana, were bewildered at the rapidity of communication with Key West, which, of course, is almost instantaneous, or "over the wire," as a Yankee close by remarked.

Although the whole line, in all its details, is far from perfect working order, yet it is opened to public use, and the public are now in a position to receive communications from Key West interrupted by the line until twelve M., when the first message was commenced between the two cities. It was long enough to be finished till one P. M.

The Spanish consular ship has only been approved "wink-wink" by the authorities, and has not been allowed to leave the harbor. The ship is now in the harbor, and has not been allowed to leave the harbor.

The steamer *Georgia* from Vera Cruz is expected on the 7th, to call for Key West next day. The steamer is expected on the 7th, to call for Key West next day.

A Haytian Commissioner Leaves Cuba for the States—Bank in Trouble—One of the Causes of Crime in Cuba.

HAVANA, Sept. 12, 1897. The steamer *Star of Cuba* sailed hence for Philadelphia yesterday at half-past two P. M. The steamer is expected on the 7th, to call for Key West next day.

Regulation by the Authorities—Hiddeous Restrictions as to Time—Movement of the Navy—The Yellow Fever—The Cable in Splendid Working Order.

HAVANA, Sept. 14, 1897. The Havana office hours of the submarine cable have been provisionally fixed as follows:—From eleven A. M. to three P. M., and from six to eight P. M.; but I presume that the company will find it for their own interest to include the authorities to permit the office to be open at all hours to the cable with the inland telegraph. As to the public, that with the inland telegraph in this happy land, where the press is not only important, but inactive enough not to take any notice of its own existence, and even injury which is not only not a matter of indifference, but a matter of indifference.

For some time past the Banco de San Carlos, of Matanzas has been suffering; but its situation has somewhat ameliorated, in consequence of the sale of the last sugar plantations, and the additional four per cent paid to the shareholders on the original capital. Nothing has yet been determined by the Spanish government with respect to the concessions asked for by the merchants and shipowners of Barcelona, to encourage the importation and warehousing of American cotton in Havana. I assume that the Spanish government will not be the most insignificant.

Although we are quite unaccustomed to hear of robbery being committed in the interior I cannot help calling attention to its rapid increase. To

what cause can this be attributed? Is a very natural interrogative, and I have endeavored to investigate the cause of the increase of robbery in this country. The cause of the increase of robbery in this country is a very natural interrogative, and I have endeavored to investigate the cause of the increase of robbery in this country.

There is no variation in the sugar market. The high price for small lots does not exceed \$15 per cwt. for No. 12. Chartered—English bark *Minnie* (at Cardenas), Havana for Boston, at \$1.50 per cwt. United States currency is firmer at 24 and most of the gold has risen to 19 1/2 premium.

How Spain Consumes the Cuban Revenue—No Answer to the Cable Congratulations—Yet—Hobbes and Outrages—Failure of Cuban Oil Pits—How a Mexican Exile Lives in Cuba.

HAVANA, Sept. 14, 1897. Among the several royal decrees which arrived by mail from Spain the *Official Gazette* of Havana publishes one by which various items of the estimates of Cuba are reduced. Attention is especially drawn to the item of \$300,000 dedicated to the necessary repairs of highways, and which became reduced to the insignificant sum of \$120,000 for an affair of such an important character to this country. This is the more extraordinary inasmuch as more than four-fifths of the budget is consumed in attending to the general expenditure of the nation, to the prejudice of the interests of this province.

The keenest feeling prevails in consequence of no general reply having been received yet, to the moment of writing these lines, from Madrid, as was reasonably calculated, after the various submissive messages which were passed through in the afternoon of Tuesday last. The people have become very much concerned about it, and are anxiously waiting from day to day to hear the cause. I need not add that not a small portion of them attribute it to other causes than those which have been mentioned.

In a previous letter I mentioned the increasing number of assaults and robberies perpetrated in the country with impunity. In connection with this I just notice by the newspapers that there are large gangs of bandits of Cuban origin, who are now in the country, perfectly organized, and committing all kinds of depredations, and that a strong detachment of cavalry was sent against one of these gangs from Remedios, without having yet been able to obtain any decisive result.

A great deal was said last year about certain petroleum oil pits in Cuba, and among others the "big dig" which was being made in Matanzas. I have not heard of any satisfactory result. It is true that many thousands of barrels of oil have been produced, but the quantity is not sufficient to meet the demand. The quantity is not sufficient to meet the demand.

The sugar market continues inactive, and few sales are being made. The price of sugar is now at 10 cents per pound. The price of sugar is now at 10 cents per pound.

conformable number of small open surveys, could conveniently give us this aid. If not, it may even be worth while for the Havana to do so, for the use of the telegraph is a very useful instrument for communication, provided that communication is rapid and free from all commercial obstacles, and not subject to the same restrictions as the cable.

The English steamer *Narra*, from Key West on Thursday night, appeared by daylight yesterday, and anchored opposite the *Morro Castle*. After taking in a free supply of one hundred tons of coal she will leave today for New York, via Key West, in order to reach her port of destination before the end of the month.

When the *Narra* left Key West, the United States steamer *Dow*, and the steamer *Nightingale*, of the U. S. Navy, were also in the harbor. The *Narra* is a very fast ship, and will reach New York in a few days.

When the Governor Martin left Puerto Ricasa on the 11th, Mr. Henry C. Donovan, the English representative here, accompanied him. The Governor is now in the harbor, and will leave today for New York.

CONSTITUTIONAL CONVENTION.

SPECIAL TELEGRAM TO THE HERALD.

Probable Postponement of the Work of the Convention Until Next Year.

It is currently reported here that the leading politicians in the State Constitutional Convention have agreed to throw over for their work until next year, and to submit no report to the people. Their reasons are a few, to encounter their ticket in the next State election with a new constitution, and an unwillingness to take from the Legislature any of its power over New York until after the Presidential election of 1898.

The enormous amount expended on the Convention will therefore be thrown away.

PROCEEDINGS OF THE CONVENTION.

Protracted Discussion on the Reports of Committees on the Finance and Canals—A Proposition to Sell the Canals Rejected.

ALBANY, N. Y., Sept. 18, 1897. The Convention met at nine o'clock this morning. Several propositions were presented and referred to the Committee on State Prison.

Mr. GRAY called up the resolution offered by him yesterday, calling upon the Metropolitan Board of Police for information.

Mr. GRANT moved to amend as follows:—"Provided it is not attended with any expense to the State." The amendment was rejected.

Mr. GRANT then called up his resolution calling upon the Metropolitan Board of Police for information.

Mr. GRANT moved to amend as follows:—"Provided it is not attended with any expense to the State." The amendment was rejected.

THE REIGN OF BONY IN THE SOUTH.

The Real Meaning of the Reconstruction Acts.

[From the Round Table.] The plain meaning of the pseudo-Reconstruction acts of Congress, now being pushed to their most mercurial consummation, is to place the negro in the South the entire negro population and white as well as white majority in the South. To prohibit the registration of the negro in the South, and to prohibit the registration of the negro in the South, and to prohibit the registration of the negro in the South.

Mr. MURPHY moved to further amend "that every act which imposes, continues or renews a tax, duty, or assessment, or a charge, or a fine, or a penalty, or a forfeiture, or a seizure, or a sale, or a disposition of property, or a transfer of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a deposit of property, or a loan of property, or a gift of property, or a bequest of property, or a devise of property, or a settlement of property, or a partition of property, or a division of property, or a sale of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a deposit of property, or a loan of property, or a gift of property, or a bequest of property, or a devise of property, or a settlement of property, or a partition of property, or a division of property, or a sale of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a deposit of property, or a loan of property, or a gift of property, or a bequest of property, or a devise of property, or a settlement of property, or a partition of property, or a division of property, or a sale of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a deposit of property, or a loan of property, or a gift of property, or a bequest of property, or a devise of property, or a settlement of property, or a partition of property, or a division of property, or a sale of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a deposit of property, or a loan of property, or a gift of property, or a bequest of property, or a devise of property, or a settlement of property, or a partition of property, or a division of property, or a sale of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a deposit of property, or a loan of property, or a gift of property, or a bequest of property, or a devise of property, or a settlement of property, or a partition of property, or a division of property, or a sale of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a deposit of property, or a loan of property, or a gift of property, or a bequest of property, or a devise of property, or a settlement of property, or a partition of property, or a division of property, or a sale of property, or a conveyance of property, or a mortgage of property, or a lien on property, or a charge on property, or a security on property, or a pledge of property, or a
